---

## THE PROGRAM

### 1:00-1:10pm Introduction and Welcome

*Stephen S. Park, MD, Charlottesville, VA*

### 1:10-1:50pm Cutaneous Lesions and Flaps

*Stephen S. Park, MD, Charlottesville, VA*

A review of common skin lesions in terms of diagnosis and treatment options.  
Algorithms for local flap selection and proper design will be covered.

### 1:50pm-2:30pm Facelift/Liposuction/Cutaneous Resurfacing

*Edward H. Farrior, MD, Tampa, FL*

This will cover the management of the aging lower face with emphasis on patient selection,  
treatment options, surgical techniques, and complications.

### 2:30-3:10pm Syndromes and Congenital Problems

*Jonathan M. Sykes, MD, Sacramento, CA*

This will include an overview of craniofacial problems such as clefts, microtia, and syndromes involving the face, head,  
and neck. It covers the heredity, initial team management, and surgical techniques.

### 3:10-3:20pm Break

### 3:20-4:00pm Head and Neck Reconstruction/Facial Paralysis

*Terry A. Day, MD, Charleston, SC*

A review of the major flaps utilized in head and neck reconstruction, including the "nuts & bolts" of myocutaneous  
and microvascular flaps. This also covers the basic management and rehabilitation of facial paralysis.

### 4:00-4:40pm Browlift, Blepharoplasty, and Office-based Procedures

*Tom D. Wang, MD, Portland, OR*

Rejuvenation of the aging upper face will include the analysis, indications, and various surgical techniques used.  
In addition, office-based procedures including fillers and botulinum toxin will be covered.

### 4:40-5:20pm Maxillofacial and Soft Tissue Trauma

*John L. Frodel, Jr., MD, Danville, PA*

An overview of soft tissue trauma and facial fractures in terms of their diagnosis and management will be provided.

### 5:20-6:00pm Rhinoplasty

*Dean M. Toriumi, MD, Chicago, IL*

Cosmetic and functional aspects of rhinoplasty are covered including evaluation, fundamental techniques and complications.

### 6:00-7:00pm Reception
